TELECOMMUNICATIONS AND RADIO ENGINEERING

VOLUME 26/27

CONTENTS FOR 1972

Number 1

	Page English	Page Russian
PART 1 TELECOMMUNICATIONS Volume 26		
GROUND-LEVEL RADIO COMMUNICATIONS		
A. P. Bilenko, L. N. Morgunov and V. M. Kuz'min: The Altai Multichannel Mobile VHF Communications System	1	1
MULTICHANNEL RADIO COMMUNICATIONS		
V. V. Gerasimov, Ye. G. Okhtyarkin and V. A. Titkov: Selectivity Requirement of an FM Receiver	6	9
A. L. Badalov: Allocation of Frequency Bands for the Development of Space Communications Systems	11	15
L. Ya. Kantor and Yu. M. Payanskiy: Influence of Satellite Antenna Gain on a Satellite Communications System	13	19
WIRE COMMUNICATIONS		
I. M. Gubrenko and Ye. V. Kuchumov: The ATG-70 Loud-Speaking Telephone Set	16	22
G. I. Goncharova: Duration of Local Calls from Coin Telephones	20	28
WAVE PROPAGATION		
Ye. N. Konopleva and Ye. A. Khmel'nitskiy: Models for Radio Wave Propagation on SW Links of Nonoptimal Length	24	33
N. F. Vollerner and B. Ye. Lukoyanov: Characteristics of the Fast Multiplicative Fluctuations in High-Latitude SW Channels	28	39
F. B. Chernyy: A New Application of the Long Lines Circle Diagram (Wolpert Diagram)	32	44
POWER SUPPLIES		
I. A. Kazarinov: Batteryless Supplies for Large Telephone and Telegraph Stations	35	48
N. I. Seryakov: A Study of Remote Supply Circuits for Cable Links	39	53

N. I. Seryakov: A Study of Remote Supply Circuits for Cable Links	39	53

	Page English	Russian
COMPUTER APPLICATIONS TO COMMUNICATIONS		
I. Ye. Soloveychik, R.I. Drabkin, K.K. Yarmarkin, G.V. Leusskaya, F.M. Shargorodskaya, G.G. Kornitenko and A.S. Tsedik: An Electronic Circuit for Data Display	44	59
COMMUNICATIONS EQUIPMENT		
V.P. D'yakonov: Avalanche Transistor Controlled Dividers and AC Switches	48	64
Yu.A. Dolgopolov: Separation of Pulse Signals by a Detector-Discriminator	51	67
Yu.I. Kholodnov: An Amplifier with a Series-Tuned Circuit in the Emitter (Cathode) Circuit	55	71
PART 2 RADIO ENGINEERING Volume 27		
A.N. Denisenko: The Use of a Frequency Discriminator to Measure Distance in FM Radio Range-Finding Systems	59	1
L.E. Varakin: Correlation Properties of Derived Signals	63	6
E.I. Kulikov and A.P. Trifonov: Optimal Estimate of the Energy Parameter of a Signal When Received on a Background of Normal Noise	65	10
M.A. Bykhovskiy: Methods of Estimating the Probability of Incorrect Reception in the Theory of Digital Data Transmission II. Systems with Multiposition Signals	68	14
S.Yu. Vozbinas: Discrete Optimal Filtering	73	20
V.A. Kisel and Yu.D. Koshkin: Synthesis of Circuits with Inverse Characteristics	76	24
O.N. Tereshin, L.N. Kutnetsov and M.L. Losev: Wave-Channel Type Antenna with a Modulated Phase Velocity and Repeated Use of an Array	80	31
V.M. Bogachev and V.V. Nikiforov: Parasitic Oscillations in Oscillators with External Excitation Due to Internal Feedback in the Transistor	83	36
L.K. Soloshek: Noise Figure of a Regenerative Amplifier Directly Coupled to the Load	90	45
Yu.L. Khotuntsev and O.F. Shakhno: Estimate of the Selectivity of Regenerative Amplifiers	94	51
M.V. Gitlits: Estimate of the Phase Fluctuations of a Signal Reproduced from Magnetic Tape	98	57
BRIEF COMMUNICATIONS		
V.V. Vodop'yanova: Noise Immunity of FSK Signal Reception in Communication Systems with a Guard Band	104	65
L.R. Yavich: A Method of Synthesizing Step Transitions	107	69
I.A. Golyanitskiy: Estimate of the n-th Order Moments of Modulated Oscillations	109	72
A. Abduazizov: Nonlinear Distortions in a Sinusoidal Frequency Detector Under Dynamic Conditions	112	75
P.V. Belov, N.E. Kirillov and A.I. Cherkunov: Noise Immunity of Space Diversity Reception in the Presence of Fading Interference	114	77
Ngyen Gui Luan and V.M. Solov'ev: Use of Phase Detectors to Measure Phase Shifts Between Sinusoidal Oscillations of Unequal Frequencies	116	80
L.S. Gordeyev: Transmission of an FM Signal Through a Magnetic Recording Channel	119	82
A.A. Pirogov: The Prospects for Ballistic Antennas	120	83
FOR THE ENGINEER		
A.B. Ivashkevich: Design of a Bandpass Amplifier with Unlike Two-Tank Filters	121	85
Yu.D. Sergushov and L.A. Shkol'nyi: Use of a Quantizing Electron-Beam Tube to Convert a Broadband Signal into a Digital Code	127	92
G.V. Voishvillo: Determination of the Nonlinear Distortions of an Amplifier with Deep Feedback	130	95
S.M. Saraev: Single-Tank Tuned Transistor Amplifier of the Common-Base Common-Base Type	133	98

Number 2

	Page English	Page Russian
PART 1 TELECOMMUNICATIONS Volume 26		
TELEVISION		
N. G. Deryugin and V. A. Minayev: A New Universal Electrical Test-Card	1	1
O. V. Yevnevich-Chekan: Design of Amplitude-Frequency Response Equalizers for Television Trunk Lines	5	6
N. G. Khitrovo: Scope for Time Multiplexing the SECAM-3 Color Television Signal	10	13
TRUNK-LINE WIRELESS COMMUNICATIONS		
V. A. Shamshin: Basic Trends in the Development and Improvement of Stationary Radio Communications Lines	13	17
TELEGRAPHY AND LIGHT TELEGRAPHY		
E. N. Kravchenko and T. P. Sergeyeva: Conjugation of Direct Connections Stations with Message Switching Centers	15	21
Yu. B. Balter, N. A. Berkman, P. I. Darova, and A. B. Pugach: Telegraph Service Measurements and New Measuring Equipment	20	27
Yu. Ya. Shats: Facsimile Link Conversion to FM	30	39
COMMUNICATION LINE		
I. I. Grodnev, A. A. Kashutin, R. M. Lakernik and I. I. Nikol'skiy: A Balanced Long-Range Communications Cable with Corrugated Steel Sheath	33	44
M. I. Mikhailov and E. L. Portnov: Measurement of Grounding Device Spreading Resistance	38	51
M. A. Klimov and V. A. Kozlov: Compensation of RF and LF Interference Voltages Over a Wide Frequency Band	42	55
DATA TRANSMITTAL		
V. S. Skvortsov: A Method for Improving the Noise Immunity of Sync Triggering Signal Reception	46	60
V. P. Pankratov and K. I. Chaiko: Influence of Spectrum Limiting and Phase Distortion on PSK Data Transmission Reliability	50	66
Yu. S. Zlotnikov and I. Z. Kaizer: Computer Simulation of Decoding Algorithms for Error-Correcting Cyclical Codes	54	70
AMPLIFIERS		
L. S. Gapluchuk: Measurement of Transistor Amplifier $\mu\beta$-Loop Characteristics	57	74
PART 2 RADIO ENGINEERING Volume 27		
A. I. Dymova and Yu. A. Vorontsov: Calculation of the Region of Passive Noise from the Earth's Surface	64	1
E. Z. Finkel'shteyn: Optimal Reception in Communication Channels with Rapidly Varying Parameters Part I	68	6

	Page English	Page Russian
B.S. Gol'dberg and G.V. Konovalov: Energy Spectra of Pulsed Random Processes of Mixed Type in Systems with Statistical Multiplexing	72	13
N.I. Kozlenko: Noise Immunity of Pulse Code Modulation when Transmitting Speech	78	21
R.M. Turkel'taub: Indeterminacy Function of a Sequence of Signals with Random Repetition Period	86	32
V.A. Kisel': The Response of a Bandpass System to Pulsed Signals	89	36
V.I. Gostev: Analysis of Channels with Synchronous Switches	95	46
R. Kauchor: Radiation Pattern of an Antenna Array Fed by a Long Line	100	52
N.A. Dolinin: Optimal and Suboptimal Systems for Detecting Fluctuating Optical Radar Pulses	103	56
Yu.A. Volkov, V.A. Korolev and V.N. Serov: Analysis of Two-Stage Amplifier Sections with Maximum Overall Feedback	109	64
F.F. Mende, N.N. Prentslau and V.M. Dmitriyev: Microwave Amplifier with Internal Negative Feedback	112	69
A.S. Vinitskiy and Yu.A. Timofeyev: Automatic Monitoring of the Energy State of a Broadband FM Communications Channel	117	76
I.S. Prokhorov: Transistor Operation at Low Supply Voltages	119	80
N.M. Ashimov: Effect of Distributed Base Resistance on the Input Characteristic of a Transistor with Strip Geometry	122	84
BRIEF COMMUNICATIONS		
V.P. Zhikharev and Yu.G. Shatrakov: Linear Array Factor for an Exponential Signal Amplitude Distribution	126	20
V.D. Razevig: Solution of Boundary Value Problems for the Fokker-Planck Equations	127	90
V.V. Yermistov and D.T. Petrov: On the Effective Selectivity of a Receiver Incorporating AGC	130	93
V.P. Meshchanov and Yu.V. Kibirskiy: Directional Couplers using Sections of Coupled Lines with Different Electrical Lengths	132	95
M.S. Kapustin and B.A. Kalabekov: Influence of Sync Signal Phase Fluctuations on the Main Quality Parameters of a Television Signal Transmitted Over a PCM Channel	133	97
E.G. Vlostovskiy: Determination of the Transmission Matrices of Four-Poles Derived from Eight-Poles	136	100
K.I. Shmel'kov: Measurement by Phase Methods of Speed Fluctuations in Magnetic Signalograms	138	102
V.Ya. Stenin: The Large Signal Equivalent Circuit of a Field-Effect Transistor	140	104
A.F. Poplavskaya, M.S. Trizno and A.F. Nikolayev: Sealing of Type KLS Capacitors by Novolac-Epoxide Block Polymers	142	106
I.N. Rybakov: Response of an Amplifier with Pairs of Tuned Circuits to Pulse Signals of Various Shapes	143	107

COMMUNICATIONS NETWORKS AND SYSTEMS

V.N. Roginskiy: Data Delivery Network Design Problems	1	1
R.B. Sosna: Criteria for Assessing Trunk Network Signaling Systems	6	8
Yu.A. Petryakov, V.P. Revel's and M.V. Simonov: A Method of Analyzing Multichannel DSB Systems	8	11
M.Z. Petrova: Speech Channel Asymmetry With Respect to Attenuation Equivalent	12	15

Page

English Russian

AUTOMATIC SWITCHING

A.V. Bulanov and O.N. Ivanova: Schematic Circuit and Group-Building Circuit of a High Capacity Quasi-Electronic Automatic Office 14 18
L.Ya. Misulovin: The Optimal Integration Level of Functional Units of Prospective Automatic Offices 19 23

MULTICHANNEL WIRE COMMUNICATION

A.I. Borisov: Transistor Amplifier Power Consumption in HF Transmission Systems . . 23 30
I.M. Butlitskiy and V.P. Sukhanov: Computer Optimization of a Composite System of AGC Circuits 27 34
I.M. Simontov and V.M. Nemirovskiy: Nonlinear Distortion in Bridge-Type AGC Circuits 30 37

MULTICHANNEL RADIO COMMUNICATIONS

G.M. Vaizburg and A.S. Nemirovskiy: The Use of a Composite Signal on VHF Tropospheric Scatter Links 32 40
V.A. Polukhin: Determination of Waviness Tolerances on HF Channel Responses in Systems with Over 600 Channels 39 48

CIRCUIT THEORY

A.F. Golubnichiy, A.A. Lanne and Yu. D. Ryabov: Stability Criteria of the Frequency Characteristics of Microelectronic Active RC-Circuits 44 53
A.A. Lanne: Dependence of the Stability of the Frequency Characteristics of RC-Networks on Their Differential Properties 79 59
Yu.K. Terent'yev: Use of LC-Filters with Loss Compensation 53 64

SIGNAL AMPLIFICATION AND TRANSFORMATION

V.I. Kirillov: Interference Protection of Regenerative Parametric Amplifiers 57 68
B.A. Kalabekov and L.A. Letnik: Efficiency of Methods of Digital Compression and Expansion 61 73

PART 2
RADIO ENGINEERING
Volume 27

K.N. Shchelkunov and L.G. Kazovskiy: Noise Immunity of Optical Communication Links with Frequency Multiplexing of Digita Data Channels 67 1
G.A. Malolepshiy: Noise Immunity of Digital FM Signal Reception Using Post-Detector Integration 70 5
S.S. Sviridenko: On the Theory of Synchronization for Digital Data Transmission 75 12
V.B. Kozyrev and B.Ye. Petrov: Reactive Transforming Four-Poles with Minimal Dissipative Loss 79 18
V.N. Troitskiy: Investigation of Long-Distance Tropospheric Propagation of Centimeter and Decimeter Waves Along the Leningrad-Petrozavodsk Route 87 29
K.B. Chelyshev and I.M. Kirmasov: Experimental Determination of the Statistical Characteristics of a Short-Wave Channel 91 36
A.F. Chaplin: Synthesis of an Antenna Array to Give a Radiation Pattern Assigned by a Continuous Function 96 42
V.M. Bogachev and V.V. Nikiforov: Effect of the Parasitic Inductance of the Emitter Lead on the Stability of an Oscillator with External Excitation 100 48
V.S. Skvortsov: Use of Sequential Analysis for a Qualitative Estimate of the State of a Communications Channel 105 56
N.N. Belousov and N.I. Kirsanov: Discriminator of a Tracking Instrument for Measuring the Spatial Delay Time of a Noise-Like Signal 108 60
A.D. Petrov: Average Noise Immunity of Space Diversity Reception when Affected by Interference from Foreign Radio Stations 115 68
V.I. Yachevskiy: Effect of the Shape of the Switching Signal on the Transients in a Current Switch with a Tunnel Diode in the Collector Circuit 120 75

	Page English	Page Russian
V.Ya. Stenin: Cascode Amplifier Using MOS Transistors with Series Current Feedback	124	81

BRIEF COMMUNICATIONS

N.I. Smirnov: Construction of a Large Ensemble of Sequences	129	88
B.I. Glazov: Periodic Numerical Sequences for Forming Noise-Like Signals with Frequency Modulation	132	91
S.L. Kondrat'yev and Yu.V. Karpin: Correlation Estimate of the Quality of a Communications Channel	134	93
E.I. Plotkin: Use of the Integral Invariant of the Phase Representation for the Separation of Signals	136	96
E.V. Zelyakh, A.M. Ivanitskiy and L.M. Roitman: Construction of the Equivalent Input Impedance of Two-Terminal Circuits	138	98
G.R. Rubinstein: Calculation of the Field Strength of an Unsymmetrical Dipole for Small Numerical Distances	140	100
N.F. Vollerner and B.E. Lukoyanov: Distribution of Slow Multiplicative Fluctuations of SW Signals in High-Latitude Radio Communications Channels	142	102
B.I. Shotskiy: The Standard Radio Section in Detection Systems	145	105
B.A. Kalabekov, N.E. Kalabek'yants and L.A. Letnik: Analysis of the Cyclic Synchronization Parameters of a Communications System with PCM and Time Division of the Channels	146	106
Yu.V. Kartavykh: Synchronous Detector	148	109
V.V. Zimin: Frequency Multipliers with a Large Multiplication Factor	150	110

RURAL COMMUNICATIONS

Ways for Improving Rural Telecommunications	1	1
Ya.V. Pergler and M.A. Marinich: The Present State and Future Trends of Rural Communications Development	3	5
Ye.I. Kuchryavyi and I.Ye. Pavlovskiy: Principles of Telecommunications Organization in Rural Areas	6	10
I.M. Kuznetsov: Communications Problems in the Despatcher Control of Agricultural Production	9	15
B.E. Saul: Reliable Communications for the Modern Village	15	22
D.A. Mednikov: Unsolved Problems of Despatcher Communications Organization	17	24
L.M. Gol'shtein and S.M. Sasonko: The Linking of Rural and Urban Telephone Networks Via Rural Toll Junctions	18	26
E.A. Melamud: Improvements to the K-100/2000 Automatic Telephone Office	24	33
L.G. Frolova: Modernization of the K-50/200 Automatic Office	27	36
A.Ya. Markovich and M.N. Pisker: Construction of Switching Systems for Servicing Small Groups of Subscribers of the Rural Telephone System	29	38
T.N. Plotnikova: Use of Automatic Checking Instruments in Rural Telephone Networks	35	44
L.T. Kim: Line Multiplexing Apparatus for Rural Telephone Communications	38	47
M.V. Brodskiy and A.I. Ostrovskiy: The "Konteiner" Multichannel Radio Relay Communications System	43	54
L.B. Marimont, Yu.A. Parfenov and A.B. Tsaliovich: High-Frequency Cables for Rural Communications	50	64

	Page English	Russian
ANTENNA-FEEDER DEVICES		
V. D. Kuznetsov and V. I. Komissarov: Contactless Tuning of a Traveling-Wave Feeder	53	68
V. K. Paramonov: Optimization of the Parameters of a Cophased Antenna with a Broadband Active Reflector	56	71
PART 2 *RADIO ENGINEERING* Volume 27		
V. M. Rozov, A. A. Vinogradov and V. I. Nosov: Influence of AGC on Crosstalk Noise Level in Multichannel SW Systems	60	1
A. P. Bilenko and I. V. Pakhomov: Signal Spectrum in a Mobile Ground Communications System When the Subscriber's Antenna Velocity Fluctuates	64	8
Yu. A. Kuznetsov: Determination of the Probabilities of Errors of the First and Second Kinds in Truncated Sequential Analysis	67	12
I. D. Vul'man: On Some Properties of Linear Network Characteristics	70	17
V. P. D'yakonov: Stabilization of Relaxation Oscillators Based on Devices with an S-Type Current-Voltage Characteristic	76	25
A. V. Prosin and A. G. Pavel'yev: Calculation of the Power of a Radio Signal Scattered by a Statistically Uneven Surface	79	30
V. A. Govorkov: Letter to the Editor	87	40
V. M. Kantor: The Design of Piezoelectric Band-Elimination Filters with Given Working Parameters	88	41
Vl. I. Karpukhin: Effect of Nonlinearity in the Feedback Loop of a Recirculation Comb Filter	95	51
Yu. L. Simonov and V. N. Vorob'yev: Distribution of Equivalent Attenuations and Generalized Detunings in a Stagger Single-Tuned IF Amplifier with Critical Staggering	100	57
G. N. Shelamov: Analysis of the Interaction Between a Dielectric Resonator and a Rectangular Waveguide	103	61
A. Z. Zavadovskiy and Yu. G. Kryukov: Spread of Transistor Parameters as a Factor in the Design of IF Amplifiers with Pairs of Staggered Stages	109	70
Ye. I. Sbytov: Analysis of Methods of Equipment Duplication in Complex Systems When the Equipment Switching is Not Ideally Reliable	115	78
BRIEF COMMUNICATIONS		
V. P. Titov: Mutual Correlation Properties of Binary Sequences	118	83
Z. P. Vazhenina: Sawtooth Voltage Generator with Correcting Circuits	120	85
V. A. Senderskiy: Noise Immunity of Quasi-Coherent Reception of Phase-Shift Keyed Signals with Respect to Additive Fluctuation Noise	122	87
I. Kh. Rizkin: Effect of the Nonlinearity of the Junction Capacitance on the Spectral Characteristics of the Current of a Tunnel Diode	124	89
B. T. Kuznetsov: Determination of the Average Value of a Function in Real Time	127	92
A. Abduazizov: Analysis of the Operation of a Harmonic Frequency Detector Using Correlation Theory	129	95
V. A. Soifer: Optimal Binary Signal System in a Channel with Smooth Fading	131	97
FOR THE ENGINEER		
A. I. Kotsev: Analysis of the Operation of a Slave Multivibrator Using Transistors With Different Types of Conductivity	133	99
A. N. Ignatov: The Application of Field Effect Transistors in Oscillators	136	102

MULTICHANNEL RADIO COMMUNICATIONS		
V.P. Dememt'yev and V.G. Yampol'skiy: Radio Relay Links with Low Mountings	1	1
L.V. Nadenenko and V.V. Svyatogor: Signal Fading Duration in Line-of-Sight Radio Relay Links	5	6
V.I. Korzhik and G.M. Reznik: Calculation of the Error Multiplicity Function for Radio Channels with Slow Fadings	9	11
G.A. Greibo, Yu.P. Kulikov and A.N. Kurochkin: Signal-to Noise Ratio in Broadband Radio Relay Communication Channels	12	13
M. Baibosunov, O. Mamayev, T. Orozobakov and M. Turusbekov: Construction and Checking of the Zonal Antenna Attachment on the Cholpon-Ata-Orgochor Radio-Relay Link	15	16
MULTICHANNEL WIRE COMMUNICATIONS		
I.I. Shutov: The K-120 Single Coaxial Cable Multiplexing Apparatus	16	18
PICTURE TRANSMISSION BY WIRE		
V.G. Frolushkin: The New Facsimile Equipment "VYMPEL-2"	27	33
M.N. Sapunkov: Determination of Gating Parameters in Photographic Recording of Newspaper Page Pictures	32	41
DATA TRANSMISSION		
L.M. Lifshits: Some Aspects of the Synchronization of Branched Data Transmission Networks	35	44
NETWORK THEORY AND FILTERS		
A. Ye. Znamenskiy, I.N. Teplyuk and A.M. Shtromberg: Active RC Filters with Limited Attenuation Band	40	49
F.B. Derzhanksiy and O.V. Kustov: Analysis of a Method for Realizing Linear Second-Order Four-Poles	44	54
V.V. Khristich and E.I. Kuflevskiy: On the Synthesis of Active RC Filters	47	58
PART 2 RADIO ENGINEERING Volume 27		
P.S. Kurakov and I. Ya. Petrov: Some Aspects of Space Communication Developments in the Ninth Five-Year Plan	58	3
L.S. Liberman, B.V. Sestroretskiy, V.A. Shpirt and L.M. Yakuben': Semiconductor Diodes for Controlling Microwave Power	63	9
S.V. Svechnikov: Microelectronics Principles and Problems	76	25
D.B. Golovin and I.B. Fedorov: Preliminary Frequency Selection for Signal Matched Filtering	85	35
N.B. Rezvetsov and I.D. Zaderenko: Energy Efficiency of Quasi-Optimum Quadrature Reception	90	42
O.N. Tereshin and V.M. Sedov: Directional Antenna Formed by a System of Two Wires Lying along the Generatrices of a Profiled Impedance Cylinder	94	47

	Page English	Page Russian
V.N. Drozdov and G.V. Smirnov: Phase Discriminator of a Nonregular Signal	198	52
V.P. Chirkov: Capacitance Converter Designed Round a Dynistor	101	56
K.G. Shor: Some Features of the Application of Controlled-Gain Transistors	102	57
L.P. karba, Yu.S. Karpov and G.S. Porovskiy: Electrical Fluctuations in Ideal Rorward-Biased Nondegenerate Diodes	105	62
B.P. Terent'yev: Characteristics of the Electronic Telegraph	109	67
I.B. Zeliger: On B.P. Terent'yev's Paper "Characteristics of the Electronic Telegraph"	111	70
S.I. Zakharov and D.V. Iremashvili: Possible Improvements in the Limit Characteristics of High-power Tubular Ceramic Capacitors	112	72
N.M. Malyarevskiy: Optimum Characteristics of a Detection System for a Medium Having Frequency-Dependent Attenuation	115	76
BRIEF COMMUNICATIONS		
A.P. Gitnik: Elliptical Rayleigh Distribution	118	80
A.M. Davydov and V.I. Manenkov: Noise Immunity of Diversity Reception in a Two-path Channel	120	82
R.L. Drabkin: Estimate of the Levels of Combination-Frequency Signals at the Output of a Nonlinear Element	122	84
P.P. Beskid and D.V. Gaskarov: Diagnostics of On-Off Type Circuits	124	86
FOR THE ENGINEER		
A.L. Badalov and N.I. Kalashnikov: Method of Calculating Coordination Distances	126	89
G.S. Tsykin and A.N. Rynda: Design of Sinusoidal and Pulsed Signal Amplification Stages with Emitter High-Frequency Compensation	131	94
E.P. Korchagina: Effect of Servicing Strategy on the Duration of Failure-Free Operation of Systems with Redundant Elements	136	100
